The greatest duo of entertainers that ever graced the American platform is Bill Nye and A. P. Burbank, whom we take pleasure in announcing will make a tour of this section of the country sometime this season, stopping at such places en route as offer proper inducements. An evening with these celebrated humorists is a rare one and there is no doubt they would draw a full house, and the enterprising society or manager find it a profitable undertaking to secure them for an entertainment in this city. Dates and all information can be had by addressing Mr. H. B. Tharlie, 324 Pullman Building, Chicago, Ill.

Clemens, Mich., one cargo of 100,000 feet of lumber.

Prof. Flint's Mesmeric Entertainments.
Last evening Prof. Flint concluded a week's season, at the Opera House, and displayed his wonderful power as a mesmerist to six delighted audiences. His exhibitions are not only deeply entertaining to those who are interested in hypnotism or mesmerism, but they were exceedingly amusing and kept the spectators in roars of laughter. Some of his experiments were of so startling a nature as to appear supernatural. The Professor has a very agreeable manner in working those

he controls so as to amuse the spectators. He claims to be able to control but 14 per cent. One of his experiments on a man was so wonderful that a person has to see to believe it. He can make those under his control do just what he wishes, and his entertainments rank with the best every given here as creators of mirth.

The Pioneer, in an article last week on county politics, says: "For Register the Republicans will re-nominate John F. Kelly, who has made a model officer. We cannot believe that the Democrats will put up a candidate against the old gentleman, although Edward Maynard would like the position." In the same article the Pioneer says the Republicans have three candidates who will try to get the nomination for the office of Judge of Probate, Geo. M. Slusser, the present Judge of Probate, is a Democrat, an old pioneer, and will be nominated by the Democrats. Mr. Kelly is an old pioneer. Both are well advanced in years. Both attend to the duties of their offices in a manner worthy of the highest praise. Both depend on the offices they hold for a living. Mr. Slusser, the Democrat, does the Probate office work himself, while Mr. Kelly, the Republican, is too feeble to do the register work himself, and the duties of the office have been faithfully attended to the past several years by his daughter, Miss Della Kelly, who thus maintains her aged parents. Now the Republican paper seems to think it wrong for the Democrats to nominate an opponent to Mr. Kelly, but if so, is it not equally as wrong for the Republicans to nominate a candidate against Mr. Slusser? If the Republicans desire to be fair and liberal on this question, let them make an agreement with the Democrats, and have both these old and worthy citizens and pioneers nominated by both parties.

We think it would be a credit to both parties if they laid aside their partisanship in regard to Mr. Slusser and Mr. Kelly. It would show that political parties are willing to do acts that we have would meet the warm approval of the majority of the citizens of Alpena county. The Republicans have no right to ask the Democrats to lay aside partisanship, unless they are willing to meet them half way. The best plan is for both parties to nominate Mr. Slusser and Mr. Kelly, and fight their political battles over the national, State, congressional, legislative and county tickets.
